Leadership, Communication, Problem Solving, Public Speaking, Teamwork

Internship Experience

Cognifront, Nashik

- Gained hands-on experience in programming controllers and modules.
- Deepened understanding of micro-controllers, contributing to both personal and academic projects.
- Worked on developing and testing various embedded systems applications.

Virtual

- AWS Cloud Foundation and Architecture
- Microchip - Embedded System Developer
- Qualified GATE 2024

Projects

InfoSphere Campus Hub

Tech-stack: IoT, Firebase, App-script, Front-end development

- Developed a real-time lecture management and display system.
- Won 1st prize in intra and inter-college competitions.
- Implemented outdoor display for class schedules and notices.

Advancing Personal Safety Technology

Tech-stack: IoT, Firebase, Front-end development, Machine Learning
